

Optical Screens for 3D Display

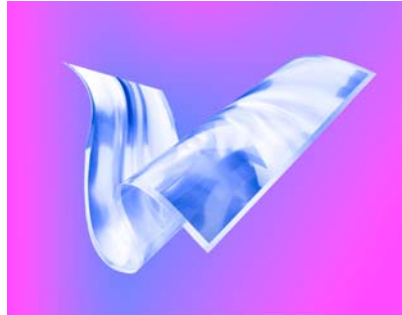

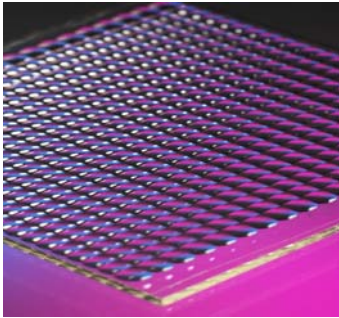

Large area optical structures
Stacking of multiple lenses
On substrate or free form
High fill factor
Custom defined shapes

Features:

Up to 50 inch screens
On glass screens or free form
Up to 100% fill factor
Square, rectangular or hexagonal packing
Aspheric lens form
Thickness control below 5 micron
Integration with masks
High thermo mechanical stability

FILL IN FORM

Design parameter	Typical requirement	Customer input
Substrate	On glass	
Anti reflex coating	Optional	
Lens stack	1 - 3	
Sag height	5 – 1000 micron	
Fill factor	Up to 100%	
Pitch	5 to 5000 micron	
Fill factor	Up to 100%	
Facet angle	Up to 80°	
Structure	Diagonal up to 50 inch	
Diffuser particles, tinting, specular reflection reduction	Optional
